Richmond Park

Trial reducing cut-through traffic within Richmond Park

Over the next 6 months, we will trial the following interventions:

- Restrict all cut-through traffic between Broomfield Hill Car Park and Robin Hood Car Park.
- Close the vehicle link between Sheen Gate and Sheen Cross.

Additionally, on weekends, we will restrict all cut-through traffic between Roehampton, Sheen and Richmond Gates. This will greatly enhance the park environment for all park visitors and significantly reduce cut-through traffic on park roads.

Key Dates
Trial start date: 15 August 2020
Consultation dates: November 2020 – December 2020
Trial Conclusion: February 2021

We are committed to undertaking a 6-month trial of these road closures. Over this 6-month period, we will measure and monitor these trials. This will include:

- In-person park visitor satisfaction surveys (where possible due to Covid-19 restrictions)
- Attaining park stakeholder feedback.
- Evaluation of the external implications of our trials in partnership with relevant transport authorities (TfL and local boroughs)
- A formal consultation with all park visitors, residents and stakeholders.

All feedback received during this time will be taken into account to determine the final outcome of the trial. The charitable objects of The Royal Parks will also be taken into consideration.

Stay up to date
To ensure that all park stakeholders are informed of the process and progress of each project, we recommend signing up to the Movement Strategy mailing list through our website www.royalparks.org.uk/movement
